Paris in Bloom brilliantly captures the splendor of French *fleurs* with lush photographs and elegant prose, providing beauty and inspiration in every page. The book is a triumph of artistic achievement and practical information, blending visual floral poetry with a comprehensive field guide to discovering the plants, flowers and artists who create inspiring floral designs, capturing both the essential elixir and elusive magic of Parisian life for all of us to savor and enjoy. A masterpiece!-

--Laura Dowling -former Chief Floral Designer at the White House and author of *Floral Diplomacy* at the White House -

'This exquisite book shows Paris is all its floral glory. It's beautifully designed - every image is a visual treat - from fresh flowers on market stalls to shopfronts and restaurants. And the theme carries on in beadwork, French ribbon and floral motifs on buildings in the form of tiles, plasterwork and glass. Of course, nothing can beat actually being in Paris, but it's an inspirational book, nevertheless.' --Prima
